Report on Green Initiatives by the Eco-Friendly Club

The Eco-Friendly Club at our college is a dynamic force that propels our campus towards greener horizons. Encircled by greenery, our college is a testament to the club's active role in nurturing an eco-conscious environment.

This report describes all the green initiatives that are a part of our college and also shows the initiatives taken towards an economically sustainable environment.

Plantation Drives and Green Campus

Our green canopy is the result of persistent plantation drives and the active participation of every member of our college community. A personal connection with the college's greenery. We even extend this spirit of environmental stewardship beyond our campus by gifting small saplings to our esteemed guests, encouraging them to become a part of the green legacy. Our surroundings are complemented by pedestrian pathways and gardens, which not only beautify the campus but also promote a healthy, pollution-free atmosphere.

Sustainable Transportation and Fitness

In our quest to reduce vehicular pollution, we have introduced a college bus service, significantly reducing the number of vehicles on campus. Our commitment to health and sustainability manifests in a green gym with fitness equipment, nestled within a green space and featuring a beautiful walking path. We promote eco-conscious fashion through ramp walks and shows featuring eco-friendly fabrics. Additionally, we raise awareness through educational programs and embrace paperless

practices. Finally, we encourage the use of reusable bags as part of our overall sustainability efforts.

The Eco-Friendly Club has been instrumental in promoting eco-fashion through events like environmentally-themed fashion shows, which serve as platforms for advocating sustainable apparel. Our initiatives extend beyond the runway, with programs designed to raise awareness about hospital hygiene and environmental health. Embracing the digital age, we have significantly reduced paper usage, opting for electronic communication and documentation wherever possible.

Collaboration with NGOs and Community Outreach

Our partnerships with NGOs are a cornerstone of our green initiatives. Through donations and collaborative projects, we have amplified our impact on eco-friendly practices. The distribution of eco-friendly bags has been a successful campaign, spreading the message of sustainability far and wide.

Celebration and Promotion of important days

We celebrate Earth Day and environmental awareness days (like Water day, forest day, etc) with engaging activities. From inspirational poetry to tree-planting drives, we encourage creative expression and action. We even turn trash into treasure with "Best Out of Waste" bird feeder contests, promoting both art and sustainability.

We Also conduct Cleanliness drives in college and in community areas also promote educational campaigns through assemblies, social media, and messaging apps to spread awareness, reminding everyone of their role in a greener tomorrow.

Date: 2 December2023

Venue : MKSSS Sitabai Nargundkar college of nursing for women, Nagpur, Seminar hall .

Time : 12:00 pm to 1:00 pm

Mode : off line .

Speaker of the session :Ms. Madhubala Saboo Chairman Simplydesi All India SHG Head At Sahkar Bharti .

Toipic of the speaker : Eco Sustainable Fashion

Guest of the program : Ms. Madhubala Saboo And Ms. Kripa Savlani Principal Of Fashion Technology Maharshi Karve,nagpur.

Participants : Faculty and Basic bsc nursing 3rd sem students of Sitabai Nargundkar college of nursing for women, Nagpur, Seminar hall.

Objective Of Program:

- To prevent adverse responses by all receptor categories exposed to the atmosphere.
- To raise awareness about the different measures to control pollution and the prevention of industrial disasters
- Prevention and control of pollution.
- Protection of the environment

Brief Description

“National pollution control day” is observed on the December 2 to instill awareness among people about environment pollution and its disastrous consequences. The national pollution

control day is observed every year on this day in remembrance of those who lost their life in the Bhopal gas tragedy when the deadly gas methyl isocyanate leaked out of the union carbide plant on the intervening night of december 2-3 in 1984. the effects of that disaster are felt even now

more than 35 year. The key objective are to educate people about the importance of pollution act and making them aware about industrial disasters. The day aim to bring awareness to people about prevention of air, soil, noise and water pollution.

National Pollution Control Day 2023 Theme

The theme for national pollution control day2023 is “**sustainable development for clean and healthy planet**”. these theme emphasizes the interconnectedness od environmental protection and sustainable development. It underscores the need for adopting environmentally friendly practices to achieve sustainable development and ensure a healthy planet for future generations.

National Pollution Control Day

On the 2nd December our institute Sitabai Nargundkar College Of Nursing organized pollution control day at seminar hall. We invite the guest speaker Ms. Madhubala Saboo (Chairman Simplydesi All India SHG Head At Sahkar Bharti) she introduced us on the topic eco sustainable fashion. eco sustainable fashion is a term describing efforts within the fashion industry to reduce its environmental impact. Madam taught us very well about the topic, and she explain mythological concept regarding god and nature, also she encourage us to contribute good things in our society where we live.

Every year Sitabai Nargundkar College Of Nursing For Women organized National Pollution Control Day program. This year we conducting poster competition for all the student and prepared skit related to pollution control day by B.Sc nursing 3rd semester and 1st semester students.

Skit: In the skit students explained and create awareness regarding various kind of pollution like soil, air, water, noise. The skit was very informative and definitely hope everyone follow that what students shown in the skit.

Poster competition: poster competition is very important for our society it helps to diffuse the objective information through the poster as they really useful. Also it makes people to think about their activities which lead to environmental degradation and take their step towards the sustainable development . to achieve this goal and create awareness among people on the basis of these theme 2023 of pollution control day conduct this competition.

MKSSS Sitabai Nargundkar College Of Nursing For Women has arranged a Pollution Control Day program on 2nd Dec 2023. The program was discorsed by Ms. Madhubala Saboo she highlighted the term eco sustainable fashion and its importance.

Dr. Rupa Verma (Principal Mksss Sitabai Nargundkar College Of Nursing For Women) expressed her gratitude towards Ms. Madhubala Saboo.

At the end of the session student learned about how to control the pollution and how to keep environment clean.
